

FACILITATING EMPLOYABILITY

Graduate employability is the top goal of most university agendas. Academics share the job of ensuring that the best graduates and undergraduates get the best opportunities for their first jobs and internships. With Talented Europe, students can access a Europe-wide database of employers and job offers where YOU can be of great help. **Your best students have talents and skills you can confirm which will open a variety of opportunities for them across Europe.** Since Talented Europe operates on mobile devices, today's natural choice for young people, this process is really fast.

At the same time, Talented Europe offers a showcase with ranking of the best European students.

"A simple idea which links employers to students. The meeting point of excellence."
